

# ZoomLink+

## Quick Reference Guide

A pupils radio aid system consists of two parts:

- Transmitter (worn by teacher) and
- Receivers (worn by pupil)

For audio shoe advice visit  
[www.phonak.com/eschooldesk](http://www.phonak.com/eschooldesk)

**ZoomLink+ Interface**

- A Audio in
- B Mic in
- C Charging Port

### On/Off Button

Phonak recommends that you push the Middle "Zoom" button down for 2 seconds to turn off and on for normal teaching.

### LCD Display

### Synchronising

To synchronise a receiver, turn the ZoomLink+ on within a 50cm range of the receiver. The receiver should beep through the hearing aid to confirm this action.

### Change Channel

Push button down with pen to scroll channels.  
Release to stop and synchronise any receivers within range.

### Wearing & Adjustment

### Microphone Directionality

Zoomlink+ has three microphone settings...

#### Superzoom

Narrow beam directionality for, in exceptional circumstances, pointing at sound source, or extremely harsh teaching environments.

#### Zoom (Recommended)

The recommended directional setting for everyday teaching scenarios.

#### Omni-directional

For using in quiet, group discussion situations by placing at the opposite end of the table.

### Audio Input

Standard 3.5mm audio cable

### Charging

ZoomLink+ interface should be attached to charge the ZoomLink+ or attach external devices.

### ZoomLink+ Compatibility

Zoomlink+ is fully compatible with ALL of Phonak's FM receivers, past and present (examples shown). Simply turn on the transmitter... and start teaching!

For more information about your ZoomLink+ and how to use other functions please consult the user manual, or visit [www.phonak.com/eschooldesk](http://www.phonak.com/eschooldesk)
